Coffee of the Month: MEXICAN OAXACA PLUMA PENAS NEGRAS

This is the Oaxacan coffee growing region known as the Zona Pluma where the Sierra Madre del Sur coastal mountain range is peppered with small coffee farms. This particular lot comes from 15 families living near the town of Peñas Negras that cultivate coffee on farms with just a few acres. Each producer harvests and carefully sorts cherries and then depulps, ferments, washes, and dries the coffee using their own micro-mill.

Available for purchase at the bean shop or through mail order:
